HOW TO

Transfer a call

There are three ways to transfer a call:

Blind Transfer

1. Press the **Tran** soft key during a call.
2. Enter the number you want to transfer the call to.
3. Finally press the **Tran** soft key to complete the transfer.

Semi-Attended Transfer

1. Press the **Tran** soft key during a call.
2. Do one of the following:
 - Enter the number you want to transfer call to
 - Press **Directory** soft key to find number
3. Now press OK or #send to dial out
4. Press TRAN soft key to complete transfer when receiving ring back

Attended Transfer

1. Press the **Tran** soft key during a call.
2. Do one of the following:
 - Enter the number you want to transfer call to
 - Press **Directory** soft key to find number
3. Press OK or #send to dial out
4. After the call is answered press Tran to complete transfer.

Do Not Disturb (DND).

Press the **DND** soft key when the phone is idle.

The icon on the idle screen indicates that DND is on.

Incoming calls will be rejected automatically and “n Missed Call(s)” (“n” indicates the number of the missed calls) will prompt on the LCD screen.

Emergency Calls

999 or 112 emergency calls

Your Cloud Voice phone number is registered to a specific address, so when you make a 999 or 112 call from your phone number, that's the address the emergency services will see.

You might not be able to make 999 or 112 calls when there's a power or network failure or if using the service through an app on a mobile device.

Call 01782 608608, email support@telephonesystems.cloud or visit <https://telephonesystems.cloud/help/> for additional support.
